

Incursion Information

Science Skills Random Sampling and Water Techniques - Year9

Wednesday, 5 April 2017

3 March 2017

Dear Parents/Caregivers,

Following are the details of an event that has been approved by the College Leadership Team.

Please read the information listed below, discuss the details with your child. If you have any questions or concerns please contact the organising teacher via the College Office no later than information note only, no note to return.

Name of Organising Teacher: Mrs R Sheehy

Venue Name/Location: St John Paul II Catholic College, Schofields Campus
College Creek and Oval

Dates & Class: Wednesday, 5 April 2017, Periods 1-4

Why students should attend: Students have been studying the ecology of the St John Paul Catholic College ecosystem. They have learnt about the sustainability of this environment. To contribute to this learning, students are immersed in their study of random sampling and water testing techniques. This will give them a better understanding of how scientists gain first-hand information about the environment.

The cost of the event is: No Cost

Emergency contact details: If Parents/Caregivers need to contact their child urgently please contact the College on 9208 7200.
